Unit 12 — Year Review: Graduation Exam Prep

Track G+M · Klasse 10 · Niveau G/M

Learning objectives I

- *I can compile a graduation portfolio with 5 representative pieces.*
- *I can write a 250-word year reflection demonstrating a wide grammar range.*
- *I can deliver a 3-minute graduation talk with one quote from my own writing.*

Lead-in I

Mr. Yilmaz wrote on the board: *one folder, five pieces, three hundred days*. The class understood it without explanation — the year was nearly over, and the graduation portfolio was due. Maja had already started. Sam had a rough table of contents written on the back of an envelope from a forest ranger he had never met.

Reading I

Portfolio structure (Klasse 10)

1. **Cover sheet** (name, year, theme).
2. **Five pieces** (one-line label each).
3. **Reflection** (250 words: arc of the year, one moment of progress, one disappointment, one connection to the next step).
4. **Talk** (3 minutes; one quote from your own writing).
5. **Forward letter** (200 words to your future Klasse-11 / apprenticeship self).

Reading II

Reflection — useful frames

At the start of Klasse 10 I … / By Christmas I had started to … / The piece that surprised me was … / The piece that didn't work taught me that … / The thread I want to keep going is … / If I had known in September what I know now, I would have …

Practise I

Niveau G

1. Build the five labels for your own folder.

Niveau M

2. Build a 6-line reflection draft using mixed tenses (past simple, past perfect, present perfect, future perfect).

Your turn I

Portfolio + 250-word reflection + 3-minute talk + 200-word forward letter. Each student submits the portfolio and delivers a 3-minute graduation talk to the class. Audience gives one feedback sentence.

Sample

At the start of Klasse 10 I wrote in three modes: translated, formal, and quietly imitating other people. By Christmas I had started to write in a fourth mode that I would call paying attention. The piece I am proudest of is my Mühlstraße bus-stop presentation: it taught me that small civic English is mostly about saying *what specifically should change.* The piece that didn't work was my first draft of the *Slow Lane* essay — I summarised the plot instead of analysing it. If I had

known in September that the slow lanes were where the work happened, I would have spent more time on small editing rather than on first drafts. By 2027, I will have completed either an apprenticeship or a year of FOS. The thread I want to keep going is *small repeated public asking* — the thing I learned from the Glasgow Garden founder. Whichever path I take, it is honestly the most useful thing I have read this year. Moreover, it works in my own language too.

Reflect I

- I can compile a 5-piece graduation portfolio.
- I can write a 250-word year reflection.
- I can deliver a 3-minute graduation talk.
