

Unit 8 — Music and Belonging

Track E • Klasse 8 • Niveau E

Learning objectives

- *I can describe a piece of music in 5 sentences (genre, mood, instruments, association).*
- *I can use modals of possibility (might / could / may / must).*
- *I can hold a 90-second conversation about a song.*

Lead-in

Hawa is preparing a class playlist. The rule: each song must mean *belonging* in some way. Jonas chose an Icelandic instrumental that sounds like wind. Hawa chose a Yoruba song her grandmother sings. Mr. Ade, uninvited, contributed a 1980s German pop song that no one had asked for. He smiled. "Belonging," he said, "is sometimes a guilty pleasure."

Practise

- Match: instrumental → no vocals; chorus → repeated section. (T / F)
- Build 4 sentences about a track using each modal (might / could / must / can't).

Your turn
