Reading I

Vocabulary — money
to save up, to spend, to waste, to budget, to lend, to borrow, to owe, salary, wage, pocket money, interest, debt, savings account, ATM, cash, card, digital wallet.

Grammar — *should / shouldn't / had better*
Mild advice: *You should save 10 % of your pocket money.* Mild warning: *You shouldn't lend money you can't afford to lose.* Stronger advice / warning: *You'd better keep a record* (= it would be a mistake not to).

Practise I

Niveau E — controlled

1. Choose *should / shouldn't*: You _____ keep a small notebook. You _____ borrow what you can't return.
2. Build *had better*: You / save / receipts → ___ .

Niveau E — productive

3. Build 4 advice sentences (2 *should*, 1 *shouldn't*, 1 *had better*) for a younger student saving for a trip.

Your turn I

Reflection, 120 words. Write about a money decision — real or invented. Use *should / shouldn't / had better* twice and *if* once.

Sample

Last year I saved for a second-hand bike. I should have started earlier, because the price went up twice. I had a small notebook in which I wrote every amount I added. If I had not kept the notebook, I would have lost track. My advice to a younger student would be simple: you should write it down, you shouldn't try to remember, and you'd better protect the notebook from siblings.

Reflect I

- I can read a personal-finance text and find advice.
- I can use *should / shouldn't / had better*.
- I can write a 120-word money reflection.
